# Skt. Josef's International School situated in the historic centre of Roskilde

PROVIDING YOUR CHILDREN WITH THE BEST SKILLS  
FOR THEIR INTERNATIONAL FUTURE

An International School focusing on high academic standards and social interaction skills  
Expected start August 2012

# Skt. Josef's International School – providing high academic standards

Skt. Josef International School is an education centre based on the Cambridge International examination programmes. The school has high academic standards, so the teaching and learning environments will always be of the utmost importance. The teachers come from a variety of nations and regularly keep up-to-date with international training programmes, so teaching will always be of the highest quality.

The classroom philosophy is one of active engagement with all pupils and the school offers new teaching methods such as Cooperative Learning strategies. Also, interactive white boards are mandatory in all classrooms, since many pupils are moti-

vated by new technologies. Experience shows pupils find themselves more engaged in the learning process when they can combine their interest for IT with learning.

## Social skills and interaction with other cultures

Skt. Josef's School places an emphasis on the well-being of all pupils and the development of necessary social skills that are essential for an international childhood and future career paths. The school welcomes pupils from all over the world and from every kind of background, helping consolidate the cultural interaction and the international understanding of each pupil.
